NOÉ DUCHAUFOUR-LAWRANCE

JABLINES I

## tai ping

Paris-based **Noé Duchaufour-Lawrance** has crafted interiors for Air France and London's hip Sketch teahouse, bespoke displays for Yves Saint Laurent Beauté, and furniture collections for heavy-hitters like Bernhardt and Ligne Roset. For his Raw collection of rugs, however, he went back to the start—not of his storied career, but of Earth itself. Five patterns explore the shifting grounds of tectonic plates, topographical patterns, and the seemingly random formations of geodes. The shaped **Hov** rug recreates jagged mountain ranges in the manufacturer's proprietary Field performance yarn, which looks sharp but feels soft to the touch. **Jablins** is a carved-out cliff of a rug, in a combination of silk, wool, and Field or pure wool. And **Taramsa** captures the hardness of rock in a cossetting tonal composition of Field and jute. [taipingtent.com](http://taipingtent.com) ➤

TARAMSA I

### flooring

"By introducing this reference to untamed nature, I aim to translate something raw into a smooth and elegant anchor inside the home"

HOV I
