

# Noé Duchaufour refined collection's for Revol

Talented creator, Noé Duchaufour-Lawrance

(<https://www.noeduchaufourlawrance.com>) was chosen by Revol to imagine an anniversary collection on the occasion of the 250th years of the Manufacture. The designer drew his inspiration from the singularity and daily life of the Drôme factory to give rise to “Caractère”. “The charcoal line is the beginning. With it is born a natural roughness giving objects their narrative strength and their depth “he explains. A remarkable artistic and technical work, which gives a result of the most elegant and refined. Available in a pure and gloss white to match the most contemporary decoration, the collection is adorned with a palette of warm colors with evocative names of spices and the culinary inspiration they provide.
